WEB DEVELOPMENT PROJECTS

PICNIK

A picnic planning application.

picnik.ianprice.co (currently deployed on my group partner's server)

- Users pick a date, a park, recipes, and drink pairings and build out their guest list. Guests are emailed invitations directly from the app, and the app tracks RSVPs.
- Based on a taste profile users create upon signup, the application makes informed recipe recommendations and beer/wine pairing options.
- Built with React, Redux, Node.js, PostgreSQL, CSS, and HTML. Makes use of five separate APIs.

GETFRESH

A web application for farmers market shoppers. - getfresh.aaronawhite.com

- Helps users find and connect with local farmers markets, submit reviews, and search for recipes by ingredients purchased at a market.
- Built with Javascript, Node.js, Express, PostgreSQL, CSS, and HTML. Utilizes three APIs.

YAHTZEE

The Dice Game - yahtzee.aaronawhite.com

- A web app designed to resemble the 90s-style, handheld version of the famous game.
- Built with React, CSS, and HTML
