PROFILE

A quick study with a particularly adaptable skillset and a comprehensive track record of exceeding ambitious goals in the political and non-profit sectors.

Experienced in data collection, reporting, and analysis; staff recruitment, development, and management; partner engagement, convening, and training; and project design and execution.

FEATURED WEB DEVELOPMENT PROJECTS

GetFresh - A web app for farmers market shoppers.
Live site: **getfreshapp.us**

- Centerpiece of the application is a zip code search feature that makes three separate API calls (using the USDA API and Google Maps API)
- Includes a recipe search feature allowing users to search by ingredients purchased at their local market (utilizes the Yummly API)
- Additional features include account creation/authentication and market reviews (by logged in users)
- Built with JavaScript, Node.js, Express, PostgreSQL, CSS, and HTML.

Yahtzee - The Dice Game
Live site: yahtzee.aaronawhite.com

- A web app designed to resemble the 90s–style, handheld version of the famous game
- Built with React.js, CSS, and HTML.

Tic-Tac-Toe - The Classic Game
Live site: tic-tac-toe-game.aaronawhite.com

- Features single and two player options.
- Built with JavaScript, jQuery, CSS, and HTML

PROFESSIONAL EXPERIENCE

- **DEPUTY STATE DIRECTOR | ENROLL AMERICA – NC**
- Oversaw the statewide consumer and partner engagement program in North Carolina
- Managed a statewide team of 5 Deputy Regional Directors in addition to 2 Special Project Organizers in SC
- Played a primary role in state plan design and execution
- Consistently in the top three performing EA staffed states
- Oversaw two hospital contract special projects—one in NC and one in SC—including the recruitment and management of project staff, the implementation of the patient engagement program, hospital staff training, and regular reporting to hospital leadership.
- Served as the press contact for Enroll America at local events, providing interviews to television, radio, and print outlets.
